“FAA’s Right-Turn Decision”

Honorable Mayor and City Council Members,

We are not for or against this proposal: we are for equality if you set this precedent. If almost \$500,000 of our taxpayers’ money is used to hire lawyers and consultants (on behalf of Summerlin residents to fight the FAA); then, those of us who live in other parts of the Las Vegas area (which are also in the “heart of the city”) **demand** that an equal amount of **our** taxpayer money be used on **our** behalf to also fight the FAA. If this is not “an issue of rich and poor”, then “provide for the public safety” of our neighborhoods also; because, “planes are coming right over the core of the city” that we live in. Once again, if you set this precedent: WE WILL be expecting approval of almost \$500,000 of our taxpayers’ money, to fight the FAA, for our neighborhoods too.

Thank you for doing the “honorable” thing.
